

RETAILEROS PRICING PROPOSAL

Billing, stock, schemes and customers — **one system for every counter.**

RetailerOS is retail management software built for Indian consumer electronics stores: mobiles, appliances, ACs, TVs and laptops. This document sets out what it does, what it costs and what you get — so you can review it with your partners or management before you decide.

THE PLANS AT A GLANCE

WHAT RETAILEROS IS

- ✓ The operating system for your retail counter — GST billing, inventory and purchase orders
- ✓ Every unit tracked by IMEI or serial number, from purchase to sale to warranty
- ✓ Brand schemes and warranty claims tracked until the brand pays
- ✓ Repairs on job cards, customer khaata, WhatsApp receipts and follow-ups
- ✓ Every store run from one owner login

WHAT IT IS NOT

- ✗ Not hardware — printers, scanners and devices are not included
- ✗ Not internet connectivity
- ✗ Not accounting or tax advisory — your CA can keep your books where they are today
- ✗ Not a lock-in — cancel any time; your data is yours to export

WHO IT IS FOR

Mobile phone stores

IMEI on every handset, brand scheme claims, warranty and repairs.

AC & appliance dealers

Serial-tracked ACs, fridges and TVs, installations and service jobs.

Multi-store chains

RATE CARD — BY BILLING CYCLE

LICENCE	BILLED MONTHLY	BILLED QUARTERLY save 5%	BILLED YEARLY save 15%
Shop one store	₹3,999 a month	₹11,397 every 3 months · ₹3,799 a month	₹40,788 a year · ₹3,399 a month
Chain — first store carries the platform	₹7,499 a month	₹21,372 every 3 months · ₹7,124 a month	₹76,488 a year · ₹6,374 a month
Chain — each additional store 3 staff logins included	₹3,499 a month	₹9,972 every 3 months · ₹3,324 a month	₹35,688 a year · ₹2,974 a month

The big figure is what is billed for that cycle; the small one is what it works out to per month. The first Chain store carries the platform; every store after it is priced lower. Chain needs a minimum of 2 stores.

WHAT A CHAIN PAYS
